## **Course Summary**

The BSc (Hons) Psychology programme offers students a single route degree in psychology. The course covers a range of psychological perspectives including biological, cognitive, developmental, and social. The course is underpinned by a thorough review of a range of research methods, both qualitative and quantitative, and exploration of the scientific method. Delivery of teaching will include face-to-face and online lectures, discussion and seminar groups and practical workshop sessions in dedicated laboratories. In the third year of study students will undertake their own independent research project under supervision. Graduates

from the programme who achieve a minimum of a 2:2 overall will be eligible for the Graduate Basis for Chartered Membership of the British Psychological Society.

## **Course Aims**

- 1. To produce a scientific understanding of the mind, brain, behaviour and experience, and how they interact with the complex environments in which they exist
- 2. To include knowledge and the acquisition of a range of research skills and methods for investigating experience and behaviour, culminating in an ability to conduct research independently
- To develop an understanding of the role of empirical evidence in the creation and constraint of theory, and also in how theory guides the collection and interpretation of empirical data
- 4. To present multiple perspectives in a way that fosters critical evaluation and reflection
- 5. To develop knowledge, leading to an appreciation of theory and research findings, including relevant ethical and sociocultural issues
- To lead to an understanding of real-life applications of theory to the full range of experience and behaviour and the application of psychological understanding to realworld questions.

## **Course Learning Outcomes**
